

Welcome to Right Start Preschool at the Heights! We are excited about our new program pioneering in the Pine-Richland area. The vision of starting this preschool began as Pastor Ralph and Cindy Vogel prayerfully considered ways to meet the needs of this community while touching the lives of the generations. The timing for Right Start Preschool is perfect in that we have just renovated our children's center and have given it a fresh, updated look. Right Start Preschool is geared toward laying the groundwork for success in life in a fun environment. Students will work on skills such as following directions, getting along with others, and kindergarten readiness. Our program has a spiritual component, an educational component, and a physical activity component.

A student's day includes opportunities for growth and development in:

- Fine motor skills
- Gross motor skills
- Imaginative play time
- Structured class time
- Team and individual skill building games
- Creative arts activities
- Performing arts activities

MISSION STATEMENT

Laying the right foundations from the start is essential for each young life. Strengthening them with love and providing the necessary tools to succeed in life is our heart's desire for our children. Our goal is to teach the building blocks of education and basic Christian/moral values

and truths. Even at a young age children can learn the foundations that will equip them to succeed in school and all of life.
